

## THE GAZETTE.

WEDNESDAY AUGUST 31.

Mackey's declaration that his bank was not in the collapsed wheat deal, receives a practical answer in the fact that it drew \$5,000,000 in gold from New York to meet its obligations.

Wiggins, the Canadian weather prophet, is again on hand with predictions of "the greatest storm the world ever saw," to occur September 10. It was supposed that Wiggins had been effectually suppressed.

Dakota is going to make a more determined effort than ever to get into the Union next winter. But the people should first decide whether the territory is to be divided or not. Their efforts will be weakened if some are pulling one way and some another.

The Democratic papers are shocked at the political activity of prohibition preachers in Tennessee, where the prohibition party threatens the democratic majority; but they view without alarm the nomination of Procherus Huntington to head the prohibition party ticket in New York. Seven-eighths of the delegates to the prohibition party convention in New York were preachers and church officers.

At the session of the Montana legislature, which met in Helena Monday, Governor Leslie delivered his message in person, and stated he had called the body together to remedy serious defects in several bills passed last winter, notably the license law, bounty law and others. The bounty law, upon which a bounty of 10 cents was given for the skin of prairie dogs and ground squirrels, has already cost the territory over \$11,000, and has depleted the territorial treasury. The session will last about two weeks.

Thomas W. Keene, the tragedian, who is to be in Chicago next week, is defendant in a singular suit. W. L. Hayden, a theatrical manager, claims to have brought out the actor, (whose real name is Esplanon), given him his assumed name, costumed him and managed him until he had gained a national reputation, and now Mr. Hayden claims that "he" name Thomas W. Keene is his own professional property, and has brought suit to prevent Esplanon from using it. It is certainly a radical remedy that would take away an actor's stage name.

The spoils system in democratic politics, says the Philadelphia Times (unwump) will give Maryland to the republicans this year; free trade in Ohio will score up forty or fifty thousand republicans in that state, and both states elect governors. How many more states can democratic tomfoolery throw away this year to obstruct Cleveland's reelection in 1888? Free trade democratic platforms would make New York vote republican in November by not less than 50,000 and make Pennsylvania vote republican by twice or three 50,000, and would that be supporting President Cleveland?

It is now settled that Munkaway's great painting, "Christ before Pilate," for which John W. Munkaway, of Philadelphia, paid over \$100,000 last February, is to be one of the leading features of the forthcoming St. Louis exposition. The picture has been on exhibition in Boston during the past two months, where it has been repeating the success achieved by its exhibition in New York during the six months previous. Thus far over 200,000 persons have seen the picture since it came to this country eight months ago. In Europe, in five years, it was visited by 2,000,000 persons.

A negro in Kentucky named Lindsey Smith was charged some time ago with killing a man near Nicholasville. As there was no positive evidence either that the man had been killed, or if killed that Smith was the murderer, Smith was not at once hanged by a mob, but was allowed the luxury of a regular trial. No evidence being produced against him, the jury mercifully refrained from finding him guilty of murder in the first degree, and he was merely sentenced to twenty-one years in the penitentiary. The other day, the men supposed to be murdered, turned up well and hearty, and the court, it is reported, has granted Smith a "new trial." It is to be hoped that his sentence will at least be mitigated. He can at least plead mitigating circumstances.

The Mark Lane Express, in its weekly review of the British grain trade, says: "The harvest progresses well. The variability in the yield and quality of the crop becomes more pronounced. Trade values continue to drop. In the London market prices have fallen 6d 1/2 and in the provincial markets 1s. The sales of English wheat during the past week were 35,882 quarters at 30s 10d per quarter, against 36,382 quarters at 32s 2d during the corresponding week last year. Country flour has fallen 6d. Foreign wheat in Liverpool declined 1d per cwt. Flour is 6d cheaper. Maize advanced 3d. Lard is down 3d. To-day the wheat trade was very slack. Values of new English were 6d 1/2 lower. Duntan and Indian were unchanged; other kinds were 6d 1/2 lower. Flour was very dull country and foreign were 6d lower. The prices of maize were against buyers. Canadian peas 6d dearer. Lard was 6d 1/2 lower.

Burchard seems to be an unfortunate name for this administration as well as for the republican candidate who barely managed a presidential election. A. M. Burchard is United States consul to Honduras. He is an appointee of this administration. He has written a report which comments with great disfavor and severity upon what he calls the immoral

habits of the people of Honduras. And worse than that the state department has given official sanction to this arraignment of the people of Honduras by printing this report. And now the government of Honduras wishes to have Burchard removed. Failing in that it is evident that his influence is gone and the United States will be prejudiced in Honduras as long as he shall stay there.

### OUR CHARITIES.

**The Care of Paupers Discussed at Omaha.**  
OMAHA, Neb., Aug. 31.—The Conference of Charities and Corrections concluded its sessions yesterday. The morning hour discussed the reports from States and produced some interesting contributions. There are 4,200 children in the various houses for whom that State pays at the rate of \$100 per annum for orphans, \$75 for half orphans and \$50 for abandoned children. It also provides for aged persons in lunatic asylums at the rate of \$100 per capita. There is a State Industrial School, which is really a very vicious person, with high walls, watch towers and armed guards and the inmates parade the yards with pistols in their belts. The whole thing is a political machine and the superintendent and attendants are swept clean and a new lot appointed with every political change.

Then followed the report on schools for the defective classes, imbeciles, blind and deaf-mutes, and Mr. Dana, of Minnesota, told how this work was done in England. Resolutions were adopted on the death of Lloyd Baker, of Gloucester, Eng., the inventor of boys' reformatories and a great worker of social reforms, including the ticket-of-leave system, which Ohio and other States are now copying.

In the afternoon session there were reports on penal and reformatory institutions, an elaborate paper on the police system of Milwaukee, from which it is claimed that police have been made more efficient and civil-service reform introduced into the appointments. The discussion turned on the principle of intermediate sentences, with a general conference of opinion in its favor. Ohio is trying this plan and it is virtually a life sentence for incorrigibles; they hope to clear the professional thieves out of the State or their profession.

The evening session was devoted to the report of the Committee on the Death of Charity. Mr. Kellogg, of New York, presented a very elaborate report, which showed that there are fifty-two cities having charity organizations, representing a population of 8,000,000, with nearly 500,000 registered paupers. These cities are making earnest efforts to abolish pauperism by repressive and curative measures, the chief of which is to be a friendly visit. Papers were then read by C. H. Lowell, of New York; Mrs. Putnam, of Brooklyn, and Miss Z. D. Smith, of Boston, which illustrated different phases of the work, but all endorsed the idea that charity is a possible theory, and consists in bringing the rich and the poor together.

After the usual complimentary resolutions, the members were adjourned and the next president, Dr. Hays, of New York, installed. The conference then adjourned to meet next July in Buffalo.

### "LET US HAVE PEACE."

**John Bright's Views of an International Arbitration Treaty.**  
LONDON, Aug. 31.—Mr. John Bright, writing to Secretary Jones, of the London Peace Society, who is one of the delegation going to the United States to present a memorial to President Cleveland in favor of the establishment of an international arbitration treaty, says:

"There is talk of a permanent arbitration treaty between the United States and England. The project is a reasonable one, and discussion may lead to its adoption. If the Government of the United States were willing to become a party to such a treaty, there is a force of good men with us to induce our Government to accept. If this be done it will be a great step forward in the world's march, and will be followed in some distant time by other nations willing to escape the sorry burden of military armaments. Two hundred members of the House of Commons signed the arbitration memorial. But far more than this number will be ready to accept the acceptance of the treaty upon our Government."

**Wiggins Boos Up Again.**  
He Predicts a Storm of Great Severity in America on Sept. 10.  
OTTAWA, Ont., Aug. 31.—The tremendous storm predicted by Prof. Wiggins, and announced August 22, 1887, is due to strike America September 10. He expects this to be the most violent blow of the century. The storm, which will originate in the Arctic Circle, is to cross the meridian of London, Eng., on the 10th, moving westward across the Atlantic to the 19th, when the storm's meek. The professor says that the war of the elements will embrace about one-half of the North American continent. Great dangers will exist for those at sea. The position of the planets is given as the cause of the storm, which will be followed by equinoctial gales.

## AWAITING THEIR FATE.

The Doom of the Anarchists Said to Have Been Sealed.

### THE DECISION EXPECTED SOON.

The Supreme Court's Opinion to Be Filed at Ottawa, Ill., Next Tuesday—Held That the Death Sentence Will Stand.

**WITH THE ANARCHISTS HANG.**  
CHICAGO, Aug. 31.—The Herald of this morning says: "The seven condemned anarchists are to hang. There is no longer any doubt about that. Information has been received through reliable sources that the Supreme Court will affirm the death verdict against the anarchists when they meet at Ottawa, next Monday. The opinion in this case will then be filed, and the judges will make it, and it will receive the signature of all the other justices, who, it would appear, are fully acquainted with its contents. No justice of the Supreme Court has given out his individual opinion directly, all of them, in fact, refuse to talk about the decision, but to a friend who recently asked him about the other case, Justice Magruder, guardedly said: 'There will be no dissenting opinion. The majority of the justices are all of one mind.' It is known that Justice Magruder entertains a very decided opinion about the merits of the case, which was not favorable to the claims of the anarchists, and his friends think that if the opinion which will be filed Tuesday will be reverberated by the verdict of the jury, that he would undoubtedly write a dissenting opinion."

Chicago, Aug. 31.—The next approach of the session of the Supreme Court at Ottawa, Ill., to convene September 6, contributes to intensify public interest in the famous anarchist case. The group of condemned men in the jail is again assuming a prominence in the public eye which surpasses the curiosity indulged in about the "boodlers." As it is the plight of those ex-honorable gentlemen, yet the shadow of the scaffold is deeper than that of the penitentiary and the realization that but a few days may elapse before the Supreme Court shall be called upon to announce the final decision in the anarchist case, naturally heightens the suspense felt by the anarchists, their relatives and friends. The men are constantly visited by their wives and children, and clothes and delicacies brought them. All seem self-possessed and even confident. Spies, Parsons and Fiske are particularly so. They look healthy.

It is given out that the decision on the appeal in the anarchist cases will be one of the first matters attended to at the session of the Supreme Court, which will commence one week from yesterday. It is also announced that the sheriff and the mayor are to be given the first information as to what the court will do with the condemned men. The case will be a "definite" one, and will at once close its work, and a monster petition containing thousands of names from every State in the Union will be presented to the Executive.

### PRAIRIE FIRES.

**Sparks from Locomotives Cause Heavy Losses in Missouri and Illinois.**  
MEXICO, Mo., Aug. 31.—The western country east of Mexico was on fire yesterday morning. The trains of W. H. Road and Earl Cunningham were swept by the flames—taking haystacks, fences, and every thing coming in reach—and but for a cornfield which stopped the flames a thousand acres would have been burnt. The loss is very heavy. The fire caught from an engine on the Chicago & Alton.

**Madison, Ill., Aug. 31.**—The report reached this place yesterday afternoon of another destructive prairie fire near Madison, a station three miles south of here on the Illinois Central railroad. A spark from a locomotive ignited the grass, and the fire spread. Women with babies, men with clubs and water and other articles were at the scene to protect their homes. The fire burned over a fifty-acre meadow, burning the fences and destroying other property. The loss could not be ascertained.

**A Dwellings Destroyed.**  
LYMA, O., Aug. 31.—Jesse Lucas, treasurer of Anglo-Canada, adjoining this county on the south, has been found to be a defaulter to the sum of \$30,000. Last Sunday Lucas and his wife left the city, ostensibly for a visit to a neighboring town, and, not returning, suspicion was aroused, and a meeting of the county commission, which called and his books examined, when the startling discovery was made. It is believed that the money was taken to Canada and detectives have been employed to find them if possible. This is the second or third defaultation that has occurred in that county within the last ten years.

**The Fidelity Bank.**  
CINCINNATI, Aug. 31.—Receiver Armstrong, who is in charge of the Fidelity Bank, will file a petition against Eugene Zimmerman, Henry Pogue, W. H. Chatfield and Driggs Swift, directors of the bank, for a sum, barely \$2,000,000 and \$3,000,000, and charging them with betraying their trusts and being individually liable for the losses of depositors.

**A Serious Blaze.**  
RICHMOND, Ky., Aug. 31.—Monday night about twelve o'clock a fire broke out in the factory of W. H. Figg & Co., and spread with alarming rapidity. Seven horses, all the feed and several vehicles were destroyed. The fire spread to the business portion of the city, and a number of establishments were burned. The loss is about \$50,000, with an insurance of \$20,000.

**Gladstone Attacked.**  
LONDON, Aug. 31.—The Duke of Argyll has written a letter to the London papers in which he says that Mr. Gladstone's attempt to intimidate and excuse the detestable tyranny of the Irish National League "shows a condition of mind on which no reliance can be placed for counsel and guidance."

**Eleven Persons Drowned.**  
FORT WORTH, Tex., Aug. 31.—Heavy rains during the last twenty-four hours have raised the rivers in Northern Texas over from the army, boats and many washers reported. Trains are delayed. Eleven persons have been drowned at Cleburne.

**Hurt by a Collapsed Roof.**  
INDIANAPOLIS, Ind., Aug. 31.—The framework of the roof of the Seventh-Day Adventists' church collapsed yesterday while the carpenters were at work upon it, and three persons were caught under the falling timbers and badly injured.

I have been for several years a sufferer from hay fever and severe head colds, and have tried other remedies with little or no relief. I have found none that could compare with Ely's Cream Balm. I would not be without it for any consideration. It is simply wonderful in its effect upon the nasal organs. S. A. Bart, Wilmington, N. C.

## HE DON'T WANT OFFICE.

Robert Lincoln Gives His Reasons for Refusing the Use of His Name.

TOLEDO, O., Aug. 31.—In an interview at Chicago with the correspondent of a Toledo paper Robert Lincoln, referring to the nomination of his name in connection with the Vice-Presidency, said:

"I simply could not accept the nomination to the Vice-Presidency. To take an office at all would be a great sacrifice of my business interests here in Chicago, and the Vice-Presidency is not an office of such importance that I could afford to think of such a thing. I most certainly should not accept the nomination for Vice-Presidency were it tendered, while I have no reason to think that it will be."

And referring to his being a candidate for the Presidency, Mr. Lincoln said:

"While I am gratified by the kindly references to myself as independent in the matter, I regret the use of my name in connection with any public office whatever. I say sincerely that if there were any way possible by which I could stop that sort of thing entirely and forever I should be happy. I have written to several persons, authors of such articles, to say so, but they go right along, regardless of my protests. It seems difficult for the average American to understand that it is possible for any one not to desire the Presidency, but I most certainly do not. I have seen too much of the wear and tear of office life to ever desire to re-enter it. It is through me that a boy whom my father became President, I can well remember the tremendous burden he was called upon to bear. True, the conflict of the war made the duties of the office then infinitely more exacting, but I have seen enough of the inside of Washington official life to feel that I do not desire it. I have no official office but a good prison. My cares and worry outweigh, to my mind, the honor which surrounds the position. All official life is infinitely wearying. I have no ill of it, while a member of Mr. Arthur's Cabinet, and made up my mind at that time that when my official term was completed I should return to Chicago and end my days in the practice of my profession."

"I do not think there is any likelihood of my receiving the nomination. The men who make the tickets would hardly do so without exacting certain pledges, and those pledges I would not give. I think that would soon end all talk of myself. I doubt whether there has been for years a Presidential candidate for whom personal pledges were not made, either by himself or by friends. Perhaps it is a real truth of Garfield's nomination was peculiar."

**A NEW MEXICO TRAGEDY.**  
Four Men Killed in a Fight Over a Mine Near Tres Piedras.

SANTA FE, N. M., Aug. 31.—News has just reached here of a terrible tragedy at the Good Hope mining camp, near Tres Piedras. Albert Meade, who came from Iowa and located the mine of the Las Lunas and El Dorado Mining Company, which is incorporated under the laws of Illinois, has had trouble with the other members of the company, claiming that they were trying to swindle him out of his share. He brought suit to cover possession, and last Wednesday went out to the mine to get some papers. When he got there he opened fire on the other partners with a Winchester, killing Joe Fowler and Harvey Meade, a nephew of Albert from Alamo, Ill., and fatally wounding a man named Hands. Fred Meade, another nephew of Albert, then closed with the desperado, and succeeded in getting possession of the Winchester, with which he knocked Albert down and shot him through the heart. Hands died five hours later. Albert A. Meade's body was buried here yesterday and the remains of the other three were interred at Tres Piedras. The coroner's investigation resulted in the acquittal of Fred Meade.

**Base-Ball.**  
National League games on Tuesday resulted as follows: At Washington—Washington, 7; Chicago, 4. At Boston—Detroit, 3; Boston, 2. At New York—New York, 2; Indianapolis, 0. At Philadelphia—Philadelphia, 4; Pittsburgh, 1. American Association: At St. Louis—St. Louis, 7; Brooklyn, 4. At Cleveland—Cleveland, 8; Cleveland, 2. At Cincinnati—Cincinnati, 7; Atlantic, 2. At Louisville—Louisville, 21; Metropolitan, 5. Northwestern League: At St. Paul (two games)—St. Paul, 12; Eau Claire, 3. St. Paul, 8; Eau Claire, 0. At Des Moines—Des Moines, 7; Oaklawn, 1.

It is reported that the directors of the Boston Base-Ball Club held a meeting Tuesday and decided to depose Kelly as captain of the team. Morrill is thought to have been chosen as his successor.

**The Hadcock Murder Case.**  
STOUR CTRY, Ia., Aug. 31.—In the district court yesterday Judge Wakarusa granted a stay till Wednesday, September 6, in the case of the Hadcock murder, for compliance in the Hadcock murder, on showing by the defense that one witness was in Rapid City, D. T., and one somewhere in the Yellowstone country. Attorneys on both sides were in open court to condemn the Governor, judiciary, churches and temperance people for efforts to fix the crime on parties accused on evidence he claimed to be of no value.

**Victoria's Regent.**  
LONDON, Aug. 31.—Mr. Gladstone, speaking at Haverdon yesterday on "A Retrospect of the Queen's Reign," said that the leading change during the reign was the system of a representative Parliament elected by the direct influence of the people ruling the country. Many foreigners commented to laws because they could not help themselves. From individual personal experience he knew that Queen Victoria had given willing, hearty and active consent to all beneficial changes, and had made herself the prime benefactor of the country.

**Singular Fatality at Nesham, Wis.**  
NESHAM, Wis., Aug. 31.—Louis Waegge, aged seventy-three, was one end of a rope attached to his body and the other to his work while the railway graded along the Chicago & Northwestern track in this city. A train came along and frightened the cow so that she jumped on the track and carried Waegge with her. Both man and cow were killed. No blame is attached to the railroad authorities.

**Killed and Injured by an Explosion.**  
KERR, Mich., Aug. 31.—The boiler of a steam thrasher exploded on the farm of Lyman G. Curtis, near here, yesterday. Mr. Curtis was fatally injured, Daniel Steeger, one of the thrashers, was instantly killed, and Miss Keweenaw and Miss Dennis Fodick, who were looking on, and several others were more or less injured.
